

About Avijit Bhadra

Avijit Bhadra is a second-year B.Tech student in Computer Science and Engineering (CSE) at Narula Institute of Technology, an autonomous college affiliated with MAKAUT. He began his academic journey in CSE (AIML) and later successfully switched to CSE after demonstrating strong performance with an SGPA of 8.525.

Avijit has a keen interest in software development, full-stack web development, and AI/ML engineering. He is proficient in C, C++, Java, Python, and has hands-on experience with Flask, LangChain, FastAPI, and front-end web technologies. He is also exploring machine learning, generative AI, and AI-powered applications to create innovative solutions.

Beyond academics, Avijit is a gym enthusiast focused on building strength, improving aesthetics, and maintaining a balanced fitness lifestyle. He is disciplined about workouts and nutrition, combining his passion for technology and fitness into a holistic approach toward personal and professional growth.

Avijit's career goal is to become a Full-Stack Developer and AI/ML Specialist, with the aspiration of securing opportunities in top companies such as Accenture, Cognizant, TCS, and Capgemini, aiming for a 12 LPA+ package.
